Bring it on with Tork PeakServe

Introducing two NEW Tork PeakServe solutions.
Meet the needs of your entire facility with the same refill.

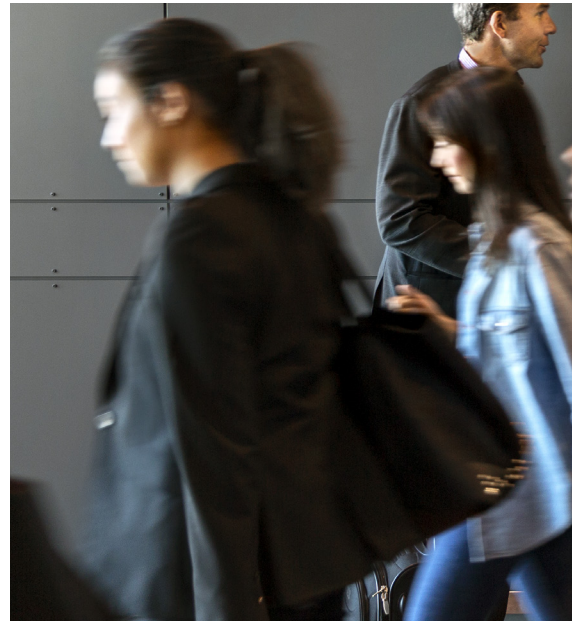

The highest capacity
on the market*
thanks to bundles that
are compressed by

50%

Get ready...

Restroom experience is important. Cleanliness and waiting times are critical to everyone. And a bad experience can result in lower overall satisfaction and a loss of productivity – negatively impacting your revenue and profitability.

Different industries, different challenges

Recreation and Retail

More people means more business – but also more challenges to **efficiently deliver a pleasant experience**, especially when facing unpredictable peaks in traffic.

Airports

The pressure on airports to provide **a smooth and pleasant passenger experience** is growing. Providing clean and readily accessible restrooms is essential and demands solutions that help cleaning staff work more efficiently.

Offices

Providing **cleanliness and well-being in the workplace**, while at the same time using resources in the most efficient way, is key to most office facility managers.

Higher Education

Campuses aim to provide **a good student experience in a healthy and inspiring environment**. Restroom solutions need to fulfill the demands of promoting good hand hygiene, be cost-efficient to maintain for staff, and be sustainable.

Healthcare

Public restrooms in healthcare facilities are **hard to consistently maintain at a high hygiene standard** due to irregularly fluctuating traffic. Wasting time on dispenser checks means less time for other cleaning. Multiple refill solutions are inefficient for cleaning staff.

Industry

Large manufacturing sites mean high traffic flows at shift changes and large distances between restrooms. **Lack of hand towels during busy shift changes** can delay workers from returning to the factory floor. Cleaning routes need to be efficient for cleaning staff.

... for those critical moments

Tork PeakServe® Continuous™ Hand Towel System helps to improve the restroom experience. The system uses compressed bundles to offer the **highest capacity on the market**, which means that you can avoid run-outs during peak hours. In combination with the easy-to-use and continuous system, Tork PeakServe lets you:

- Free up staff time for actual cleaning
- Speed up restroom flow
- Save on storage space and reduce transportation environmental impact

With Tork PeakServe you are always ready for those critical moments – **no matter how many visitors are coming your way.**

Our latest innovation explained

Tork PeakServe bundles are 50% compressed to fit twice as many in less space. The bundles latch onto each other when loaded and towels are connected so they dispense without interruption. There is always a towel available, which is very easy to grab and pull out.

The result is a new standard of smooth, continuous towel flow and a dispenser that stays slim, yet has 30% more capacity than any other product on the market.*

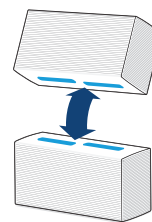

Tork PeakServe in detail:

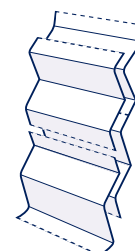

1

Bundles are compressed by 50% giving up to 2100 towels per dispenser

2

Continuous bundles latch together as bundles are loaded from underneath for fast refilling at any time

3

Bundles dispense without interruption one towel at a time

*Compared to competitor's longest roll towel in North America

Continuous system is the new standard for high-capacity dispensing

Fewer restroom delays get people in and out faster

- **Avoid run-outs with 250% more hand towels*** and lower consumption thanks to one-at-a-time dispensing
- **Faster dispensing serves users in 3 seconds** – quicker than jet air drying time
- **Taking a towel is always smooth and easy** with our patented continuous towel system
- **Use the same system everywhere** – Tork PeakServe offers dispensers for a variety of needs

More flexibility means more time to clean

- **Refill when it suits you** with up to 600 more people served between refills*
- **Carry twice as many towels** as they're compressed by 50%*
- **Cut refilling time in half** with up to 2100 towels per dispenser*
- **Increase efficiency** by using the same refill across the entire facility

*Compared to Tork folded towel 150299

Serve restrooms with different traffic flows, layouts and sizes with the same refill

Tork PeakServe is now available as standard and mini dispensers and as adapters for recessed towel cabinets, enabling you to meet the needs of your entire facility with the same refill. This reduces the number of products your staff needs to handle and store, and with the dispensers' slim design, you can enhance the restroom experience without compromising on capacity.

NEW!

Tork PeakServe Mini

- The slimmest and smallest high-capacity dispenser on the market
- Fits everywhere

NEW!

Tork PeakServe Recessed

- Improve without extensive renovation
- Easy and quick to install
- Increase recessed cabinets' capacity by up to 40%*
- Compatible with many types of recessed cabinets

Improve your sustainability performance

Well-being

Making hygiene accessible to all users. Taking a towel is always smooth and easy with our continuous hand towel system.

Our Tork PeakServe dispensers are ADA compliant and certified Easy-to-use for cleaners and users by the Swedish Rheumatism Association.

Circularity

Tork PeakServe hand towels are FSC® certified – the only Forest Certification recognized by LEED.

This guarantees that the product is made of fibers from responsibly-managed forests and other controlled sources.

More from less

50% compressed towels enable you to store more towels on the cart, save storage space, increase the number of towels per truck and reduce transportation environmental impact.

Eliminate waste from stub rolls and over consumption with one-at-a-time dispensing.
